Lasernet FO Connector 6.15 Prerelease

2021-07-27 - Alex Clemons - Comments (0) - Lasernet FO Connector News

Update in relation to Lasernet FO Connector and new Lasernet FO Connector configuration for Lasernet 10

The next release of Lasernet FO Connector is planned for **Thursday 5th of August 2021**, unless we get any critical issue(s).

Currently, we are preparing a new demo setup for Lasernet FO Connector and Lasernet 10 and will inform you once this is ready for download in the Formpipe knowledgebase.

We will also inform you if a new version of Lasernet FO Connector (6.15.0) is required or if it's enough to apply (merge) new objects into the configuration (existing/demo) when using Lasernet 10.

Enhancements - Lasernet configurations for LAC365FO
