

Lasernet 10.10.1 Release Notes

2025-01-10 - Sunil Panchal - Comments (0) - Lasernet 10 Release Notes

Release version: 10.10.1

Formpipe.

Release date: 10th January 2025

Notes

Software installation files are available.

Maintenance Report

This section briefly describes the enhancements in Lasernet 10.10.1.

Enhancements

Internal Ref.	External Ref.	Area	Details	Status
449098		Azure Storage	Added support for JobInfo substitution in SAS token settings where the JobInfo values originate from an incoming job. This builds on enhancement 446402 added in Lasernet 10.10, which added JobInfo substitution in SAS token settings where the JobInfo values are server JobInfos.	Enhancement

Note

Lasernet 10.10 also added other enhancements related to Lasernet integration with Azure Storage. For information about these enhancements, read the <u>Lasernet 10.10 Release</u> Notes.

Lasernet 10 System Requirements

For information about Lasernet 10 system requirements, refer to the <u>Lasernet System</u>
Requirements page.

Important Information to Read Before Upgrading to Lasernet 10.10

New Installers, Connections, Sign in, and SDK from Lasernet 10.2

The installation procedure and the configuration procedure in several of the client applications changed at Lasernet 10.2. There are now separate installers for Lasernet Server 10 and Lasernet Developer 10.

If you currently have Lasernet 10.1.4 or earlier and have not read the release notes for Lasernet 10.2, it is recommended that you do so before you install Lasernet 10.10. The information provided there is crucial for upgrading to Lasernet 10.2 and later, and also

describes changes that affect third-party modules developed with the Lasernet SDK.

How to Get SupportIf you encounter difficulty using Lasernet, contact us via the **Create Ticket** button in the support portal.
